East Exit: Route 4Access To: Relic Castle The Desert Resort is a large desert on the middle island of Unova. Like the route of preceeding it, it doesn't have wild grass, but has different pieces of deep sand where you come across different Pokemon. It is located on the western coastal side of the island and contains the ruins of the castle relics inside. Route 4 Relic Castle Desert Resort Relic Castle is located north of this sandy mound, with numerous ground-type simulators and Pokemon, making it a fertile training ground. Described as a popular tourist destination, Desert Resort is hardly much of a resort; deep sands and a severe sandstorm make it a rather unpleasant place to just walk around. However, if you can withstand dangerous conditions, you can find plenty of trainers to hone your skills as well as the usual rare Pokemon and items. Like Route 4, walking in the deep sand will cause Pokemon battles more often than not, so keep this in mind by making your way around. If your Pokemon needs healing, just talk to a doctor who can be found as soon as you get out of the gate separating the desert resort from the rest of the world. Just be careful that he will challenge you into battle before he will cough up his services! Coach Battle: Dr. Another free healer can be found here, but you have to fight them first. Keen researchers may also find an alternative entrance to the northwest but it's more of an exit than an entrance if you look inside... From Bulbapedia, a community encyclopedia of Pokemon. This article is incomplete. Please feel free to edit this article to add the missing information and complete it. Reason: Missing a complete map of the desert layout in BW. Desert Resort リゾートデザート Resworth Desert Wild Missingno. Appeared! Map description: This is a popular destination for tourists, but too harsh to be a resort. Venue: Route 4 Region: Generation Unov: V Location of the Desert Resort in Unova. Pokemon World Places Desert Resort (Japanese: リゾートデザート Resort Desert) is a desert located in the Unova region. It is connected to Route 4 at the southeast exit. It can be accessed to the Castle Relic. It has two subareas: desert and entrance. The geography of the Desert Resort is divided into two separate areas: a narrow desert path and a large barren desert. A sandstorm always occurs in both parts. Like Route 4, the Desert Resort has deep sand rather than high grass. The southeast entrance to the Desert Resort is a short narrow path stretching across a rocky hill. The gate at the end of the path is connected directly to the inner area. The interior covers a large area and has many sandy hills, valleys and deep sand all over its barren land. In the centre of the northern part of the resort is one of the entrances to the Castle Relic. This entrance is guarded by five statues that are actually Darmanitan in their zen mode. If a player uses RageCandyBar on them, they can be woken up, and will have the ability to mode zen. To the west of the entrance is the tower, which acts as an exit to the relic castle. In Black 2 and White 2, this tower is buried in the sand and becomes inaccessible. At the northernmost end of the resort you can see the hillside, sliding into the ocean. Elements of Pokemon Pokemon Black and White Pokemon Black 2 and White 2 Trainers Pokemon Black and White Pokemon Black 2 and White 2 Layout Version Entrance Black White 2 White 2 In the anime In the main desert resort series in the anime Desert Resort was first mentioned in the team's mission Rocket briefing with Giovanni in Bloom on Axew!. He told them that a special meteorite called Meteorite is said to be in the desert, and as such, told the trio to go there to get it. At Venipede Stampede!, the trio, along with Pierce and Dr. Sager, traveled by helicopter over the barren desert and located Meteorite, with Giovanni heading there also after receiving the opening word. Ash and his friends met with Professor Juniper to go to the Desert Resort because of the unusual activity of the Rocket team. The desert resort and relic castle within it were set to star in the original BW023 and BW024, but the episodes have since been postponed indefinitely, and ended up being retconned out of continuity when the Plasma Team's Pokemon Power Plot! Aether. In a raid battle in ruins!, Ash and Go set off Resort to explore the newly discovered ruins of the Colossus. Since the sand was too hot to cross on foot, a Pokemon ranger named Kira instructed them to use their flying Pokemon to pull them across the desert on surfboards. Thanks to this, they were able to reach the ruins. The desert resort in Pokemon Generations in pokemon generation Desert Resort made an appearance along with the relic castle in adventures where Red and his Pikachu were seen entering the castle. In the manga In Pokemon Adventures Manga Desert Resort was where the Dark Stone was excavated by Clay, in lights, the camera ... Action!. In other languages, Route 4 is quite a departure from the noise of the city of Castelia, with a constant sandstorm getting in the way of construction work. As soon as you leave the gate, Cheren arrives, wanting to know who is stronger now that you both have an insect icon. But we'll go later, so go west. A worker in one of the houses gives out TM28 (Dig). Pokemon Found on Route 4 edit Note that Route 4 (and Desert Resort) have deep sand rather than tall grass. Santile (Lv. 15-18) Darumaka (Lv. 15-18) Scraggy (Lv. 16-17) #551 Sandile - Sandile is a useful Pokemon, with an interesting mix of earth/dark types. They can learn some useful moves such as securing (at level 16), Mud-Slap (at level 19), Embargo (at level 22), and after they develop in Krokorok at level 29, Scary Face. Later they evolve in Krookodile at 40 and become even more powerful. If you are looking for a good pokemon against an upcoming gym, this is the one to choose from! #554 Darumaka - Darumaka - is an unusual fiery type that can be useful if you do not have the lines of Tepig or Pansar. It starts with deployment and can learn Fire Punch, superpowers and overheating at up level. Once you evolve it into Darmanitan at level 35, it can also learn Hammer Arm. #559 Scraggy - Scraggy is also quite unusual with a combination of darkness/fight style, and the new Moxie ability that boosts its attack if enemy Pokemon faints. He learns a solid set of moves such as Brick Break at level 20 and High Jump Kick at level 31. Once he turns to Scrafty at level 39, he can find out Rock Attack Head Smash. Now go to the Relic Castle. Castle relics (editorial) There's not much so far in the castle relics. You can get the fossil and take it to Nakren City to be reborn (The Fossil Cover will become Tirtouga, and Plume Fossil will become Archen), and you can find one new pokemon, but other than that, there's not much. Most of the castle will be available later. Psychic Perry Psychic Dua Wubat (Lv. 23) Munna (Lv. 23) 736 Wild Pokemon Edit Santile (Lv. 19-22) Yamask (Lv. 19-22) Now return to R4 and continue north. At the gates of Nimbasa, Cheren and Professor Juniper will meet you and Juniper will give you 10 Ultra Balls. After they leave, head north to the city of Nimbasa!
